NICKNAME

OPERATIONS

Provide organized, well trained, and properly equipped personnel to be seamlessly integrated into the USAF in times of peace and war. In peace-time, we support the flying mission of the 105th Airlift Wing. We support our state through our ability to rapidly respond to any contingency by planning and implementing health programs that maximize the ability of the 105th Airlift Wing personnel to deploy and safely meet mission objectives.

1987 Its Clinic deployed 24 personnel to Elmendorf Air Force Base, AK for annual training in July.

On February 28, 1991, a part of the 105th U.S. Air Force Clinic was also called to active duty with duty stations at Malcolm Grow Medical Center, Andrews Air Force Base, MD. All medical personnel were released from active duty during May 1991.

Air Force Order of Battle
