Ultramarine blue and Air Force yellow are the Air Force colors. Blue alludes to the sky, the primary theater of Air Force operations. Yellow refers to the sun and the excellence required of Air Force personnel. The American Indian shield represents the unit's heritage and importance of Air National Guard; it is attached with five feathers representing port functions, deployment, coordination, documentation and inspection. The peace pipe, a symbol of peace, attached with a feather signifies communications. The tomahawk, a symbol of war, attached with a feather denotes readiness and coordination in self-defense capabilities.
