

375th AEROSPACE MEDICINE SQUADRON

MISSION

The 375th Aerospace Medicine Squadron enhances mission performance through disease prevention, medical intervention, environmental protection programs and preparation for medical contingencies. A staff of more than 100 Air Force healthcare professionals organized into six flights provide flight medicine services to nearly 2,000 rated personnel and their families, preventive integrated health care through public health, bioenvironmental engineering, optometry and health and wellness center activities for 33,000 beneficiaries and coordinates aeromedical staging transfer and care for injured and wounded military members from all Armed Services; provides disaster and war-related medical readiness training for nearly 1,000 medical personnel.
