OPERATIONS

The 508th Fighter Sustainment Group is the sustainment arm of the F-16 System Program Office at Wright-Patterson AFB, Ohio. The directorate provides a unified direction for F-16 production, sustainment, engineering and manufacturing development, modification and worldwide deployment for more than 3,900 F-16 A, B, C and D aircraft in various configurations for units of the combat air forces of the U.S. and 18 foreign nations. This includes extensive foreign co-production and is among the most complex acquisition program in the Department of Defense. In addition, the group coordinates with product group managers and materiel group managers across the command to ensure the F-16 weapon system is operationally sustainable in peace and war.
