

611 CIVIL ENGINEER SQUADRON

MISSION

The 611 Civil Engineer Squadron provides engineer service functions at all 40 (active and inactive) sites throughout Alaska. The 611 CES assures environmental compliance within 59,000 square miles (150,000 km²) of military operations air space and provides, as a command resource, specialized capability in aircraft hangar door maintenance and repair; asbestos and lead abatement; depot overhaul and certification of emergency power engine-generator sets and aircraft arresting systems; construction of Super K-Span facilities; as well as crane and hoist repair and certification. The 611 CES provides facility support to the three O&M contracts and also manages \$61.8M in facility requirements.
