

721 COMMUNICATIONS SQUADRON

MISSION

The 721 Communications Squadron personnel provide Integrated Tactical Warning and Attack Assessment computers and communications systems support for their customers: NORAD, USSTRATCOM, USNORTHCOM, the Secretary of Defense, the President and strategic and theater commanders. The ITW/AA mission ensures connectivity of 11 major systems and more than 1,000 data circuits to sensor sites and forward users around the world.

The 721 ensures command and control systems are always available to execute the ITW/AA mission to ensure continuous operation of missile correlation, air defense and space surveillance missions at the Cheyenne Mountain Air Force Station and the Alternate Missile Correlation Center, located at Offutt Air Force Base, Neb.
