Armed Forces Expeditionary Streamers

Decorations

## EMBLEM

## MOTTO

## NICKNAME

## OPERATIONS

The 4th Maintenance Squadron, Mobile from Wright-Patterson AFB, Ohio, assisted the phase section during August. Manning was 94.0% for ART's and 102% for reservists with a total of 67 and 139, respectively. 369 hours were scheduled and 378.6 hours were flown. The scheduling effectiveness was 71.6% with 68 out of 98 sorties flown as scheduled. Three aircraft completed

phase and 2 aircraft were still in phase. Aircraft utilization rate was 1.2%. Fleet time decreased to 45.6 due to low authorized FC2220 phase manning which will continue to cause problems. Management is acutely aware of this condition and every effort is being made to stop this trend.
