### **HONORS**

**Service Streamers**

**Campaign Streamers**

**Armed Forces Expeditionary Streamers**

**Decorations**

**EMBLEM**

The divided background of blue and yellow signifies the group's meteorological duties are carried on day and night. The triangle with its proverbial stability indicates firmness of purpose and is symbolic of the three-way meteorological association of land, sea, and air. The circle indicates continuous endeavor, and the fleur-de-lis commemorates the first participation of a United States Army weather service in combat in France during World War I. The emblem bears the official Air Force colors of ultramarine blue and golden yellow. Approved, 16 Mar 1959
