Libourne (Bordeaux), France, 27 Feb–20 Apr 1919
Mitchel Field, NY, 2 May 1919

Ellington Field, TX, Jun 1919
Kelly Field, TX, 24 Sep 1919
Langley Field, VA, 30 Jun 1922 (Operated from Mitchel Field, NY, 8 Dec 1941–24 Jan 1942)
Ephrata, WA, 29 Oct 1942
Great Falls AAB, MT, 28 Nov 1942–13 Mar 1943
Navarin, Algeria, 25 Apr 1943
Chateau-dun-du-Rhumel, Algeria, 27 Apr 1943
Ain M'Lila, Algeria, 17 Jun 1943
Massicault, Tunisia, 31 Jul 1943
Amendola, Italy, 8 Dec 1943
Foggia, Italy, 10 Oct 1945–28 Feb 1946
Andrews Field, MD, 1 Jul 1947
Davis-Monthan Field (later, AFB), AZ, 24 Sep 1947
Chatham AFB, GA, 1 May 1949
Hunter AFB, GA, 29 Sep 1950
Barksdale AFB, LA, 1 Apr 1963
Carswell AFB, TX, 25 Jun 1965
Barksdale AFB, LA, 17 Dec 1992

DEPLOYED STATIONS

Lakenheath RAF Station, England, 6 Aug–16 Nov 1948
Wyton RAF Station, England, 4 May–7 Sep 1951
Upper Heyford RAF, England, 6 Sep–3 Dec 1952
Sidi Slimane AB, French Morocco, 5 Aug–30 Sep 1954, 3–7 Nov 1955, 8–18 Mar 1956, and 6
Jul–26 Aug 1956
RAF Lakenheath, England; 10–18 Mar 1958

ASSIGNMENTS

Unkn, 26 Jun 1917–9 Sep 1918
1st Day Bombardment Group, 10 Sep 1918
Unkn, Nov 1918–18 Sep 1919
1st Day Bombardment (later, 2nd Bombardment) Group, 18 Sep 1919–28 Feb 1946
2nd Bombardment Group, 1 Jul 1947
2nd Bombardment Wing, 16 Jun 1952
7th Bombardment Wing, 25 Jun 1965
7th Operations Group, 1 Sep 1991
2nd Operations Group, 18 Dec 1992

ATTACHMENTS

3rd Air Division, 6 Aug–16 Nov 1948
2nd Bombardment Wing, 10 Feb 1951–15 Jun 1952

EMBLEM

On a White disc, edged Black, a pirate running habited with a Black cape, a Brown blouse, collared Black; a White sash, trimmed Black; trousers and leggings, Black with White laces; on his head a cap of Red and White; the right foot resting on a horizontal aerial bomb, Red, thereon a White strip marked with eleven Maltese crosses Black, and hurling a hand grenade Black, fired proper. (Approved, 12 Jun 1924, slightly modified in Jun 1994.)

MOTTO

NICKNAME

OPERATIONS

Combat as day bombardment unit with First Army, 14 Sep–5 Nov 1918; demonstrated effectiveness of aerial bombardment on warships, 5 Sep 1923; good-will flights to South America, 1938, 1939. Antisubmarine patrols, 8 Dec 1941–c. 28 Oct 1942; combat in MTO and ETO, 28 Apr 1943–1 May 1945. Electronic countermeasures testing and evaluation, May 1950–May 1952. Deployed B–52s and aircrews for combat in Southeast Asia, Sep 1969–Mar 1970.

20th BS

Acquired B-52Fs previously used by the 436 BS/4238 SW on 1/4/63 and operated these as part of the 2 BW until reassigned to the 7 BW on 25/6/65. Reassigned to 2 Wing on 17/12/92 and currently active with B-52H as part of 2 BW.

20th BS

Equipped with B-52F when transferred from the 2 BW on 25/6/65. Subsequently converted to B-52D in 1969 which it used until 1983 when it received the B-52H. Unit identity transferred to 2 Wing at Barksdale on 17/12/92.

20th Aero Squadron The Squadron moved to the Aerodrome at Amanty, Meuse, to join the First Day Bombardment Group, September 7th, 1918. With the beginning of the St. Mihiel Offensive several planes were detached for special service. At this time it was believed that the squadron was to be used as a biplane pursuit organization, and no bombs were on hand for the use of it or the other Liberty squadrons on the field.

On the evening of September 13th, 1918, orders were issued for the Liberty Squadrons to bomb Conflans the following day. All that night the Squadron's trucks hauled bombs from the depot at Colombey-les-Belles. In the early hours of the morning the armorers were bombing the planes. By daylight the 20th Squadron had been transformed into a bombing squadron, and was ready to carry out orders issued to it less than 12 hours before.

That morning the squadron made its maiden raid, and since it was the first off the field, it achieved the distinction of being the First squadron of American built planes to drop bombs on the enemy.

The conditions under which the squadron began operations were far from ideal. With the exception of the Commanding Officer, none of the Pilots or Observers had ever been over the lines. Some of them had never flown in Liberty Planes, and none of them had any opportunity of learning what effect bombs had on the handling of the ships. As a result, 1st Lieut. C. G. Stephens, (Pilot) sacrificed his life in taking off on one of the first raids. As he was leaving the field on his first flight, his plane went into a stall, side-slipped and crashed. His Observer, 1st Lieut. J. J. Louis was severely injured. In spite of these adverse conditions the squadron made eight raids during the first three days of operations. Its Commanding Officer, Capt. C. G. Sellers, led seven of these eight raids in person.

It was during this period of the Squadron's history that Capt. Sellers performed a deed of courage which confirmed the wisdom of the men who made him Commanding Officer and which served to inspire his men during later days when the squadron's mounting casualty list gave them no hope of surviving the winter.

On September 15th he left with a formation of six planes to bomb the Railroad Yards of Conflans. Motor trouble due largely to the excessive strain put upon the planes in the earlier days of the offensive caused all but Captain Sellers to drop out and turn back before the lines were reached. When he reached enemy territory he found himself alone. Although he and his observer, 1st Lieut. K. C. Payne, knew from experience that the bombing plane which crosses the lines alone faces almost insuperable odds, he elected to try for the Objective without support and his observer smiled assent. The story of this raid by a lone plane is now a tradition of which the Squadron is proud. Four Fokkers were met and driven off in the dash for the important railroad center. The bombs were dropped on the objective. Three more enemy planes were met and driven off on the return to our lines, and the lone plane, riddled with enemy shots, finally reached its field. For this exploit, Captain Sellers and Lieut. Payne were awarded the Distinguished Service Cross.

Such utter disregard for personal danger proved to be contagious. The following day Lieut. John Y. Stokes, Jr., performed a deed of such distinguished gallantry that when he was recommended for the Distinguished Service Cross, his recommendation was returned by special courier with the suggestion that his action probably qualified him for the Medal of Honor and that he should be recommended Stokes was teamed as Observer with Lieut. A. F. Seaver and they flew a formation, which had Etain as its objective. As on the day before various mishaps caused all but one plane to retire before the It was during this period of the Squadron's history that Capt. Sellers performed a deed of courage which confirmed the wisdom of the men who made him

Commanding Officer and which served to inspire his men during later days when the squadron's mounting casualty list gave them no hope of surviving the winter.

On September 15th he left with a formation of six planes to bomb the Railroad Yards of Conflans. Motor trouble due largely to the excessive strain put upon the planes in the earlier days of the offensive caused all but Captain Sellers to drop out and turn back before the lines were reached. When he reached enemy territory he found himself alone. Although he and his observer, 1st Lieut. K. C. Payne, knew from experience that the bombing plane which crosses the lines alone faces almost insuperable odds, he elected to try for the Objective without support and his observer smiled assent. The story of this raid by a lone plane is now a tradition of which the Squadron is proud. Four Fokkers were met and driven off in the dash for the important railroad center. The bombs were dropped on the objective. Three more enemy planes were met and driven off on the return to our lines, and the lone plane, riddled with enemy shots, finally reached its field. For this exploit, Captain Sellers and Lieut. Payne were awarded the Distinguished Service Cross.

Such utter disregard for personal danger proved to be contagious. The following day Lieut. John Y. Stokes, Jr., performed a deed of such distinguished gallantry that when he was recommended for the Distinguished Service Cross, his recommendation was returned by special courier with the suggestion that his action probably qualified him for the Medal of Honor and that he should be recommended for that coveted decoration.

Lieut. Stokes was teamed as Observer with Lieut. A. F. Seaver and they flew a formation, which had Etain as its objective. As on the day before various mishaps caused all but one plane to retire before the lines were reached. This one plane was that of Lieut. Seaver and Lieut. Stokes. Instead of turning back they joined a formation of the 11th squadron and crossed into enemy territory. Before the objective was reached their plane was struck by anti-aircraft explosives, thrown out of control and into a vrille. Although out of control and with a badly missing engine which was forcing them to fall away from the protection of the squadron, they proceeded to the objective and dropped their bombs. By this time their motor had stopped entirely. They were then attacked by an enemy combat plane, but by diving with a dead propeller and with the continuous firing . [on] the enemy plane [Lieut. Stokes] crashed in the tree tops of a forest [within Allied lines].

Stationed at Ellington Field, TX, as of June 1919 as the 20th Aero Squadron. Assigned on 18 September 1919 to the 1st Day Bombardment Group (later redesignated 2nd Bombardment Group). Transferred on 25 September 1919 to Kelly Field, TX. Redesignated as the 20th Squadron (Bombardment) on 14 March 1921. Transferred on 30 June 1922 to Langley Field, VA. Redesignated as the 20th Bombardment Squadron on 25 January 1923. Conducted bombing tests on obsolete warships off Chesapeake Bay 5 September 1923. Flew relief missions connected with the floods in central Pennsylvania 20-22 March 1936. Participated in the "Goodwill Flights" to Columbia 3-12 August 1938 and Brazil 10-26 November 1939. Redesignated as the 20th Bombardment Squadron (Heavy) on 6 December 1939.

20 Aero Squadron

Type: Service: (Day Bombardment)

Service Period: December 31, 1917 to August 10, 1918

Locations: Easton-on-the-Hill, Narborough, Stamford

Moved to France on August 10 from Easton-on-the-Hill for service as the 20 Bombardment Squadron.

Twentieth: Three legs in a circle arranged in pinwheel fashion comprise the insignia adopted by the Twentieth Squadron; it is unofficial. The Twentieth Aero Squadron was a day bombardment squadron. It was assigned to the First Day Bombardment Group, First Army, on September 5, 1918, and reached the Front at Amanty two days later. It was engaged in the operations at St. Mihiel and the Argonne-Meuse first and second offensives. It carried on numerous bombing raids into German territory, engaged in eleven combats and received confirmation for eleven victories. The Twentieth received demobilization orders on December 11, 1918. This squadron suffered 25 casualties, consisting of 13 killed, 3 wounded, 8 prisoners and 1 missing.

Bomber Rotation at Andersen: A contingent of airmen and six B-52 bombers from the 23rd Bomb Squadron at Minot AFB, N.D., has deployed to Andersen AFB, Guam, replacing an equally sized expeditionary unit of B-52s, operators, and maintainers from Barksdale AFB, La., that was present on the strategic Pacific hub the past four months. The more than 300 airmen of Barksdale's 20th Expeditionary Bomb Squadron honed their expertise while on Guam, where the United States has maintained a continuous presence of bombers since 2003 by rotating units in from stateside bases for months at a time. "While here, we integrated with the USS Stennis Navy carrier strike group, trained with joint terminal air controllers from Australia, flew multiple missions in Red Flag-Alaska, and engaged with regional partners in Australia, Japan, and [South] Korea," said Lt. Col. Mike Miller, who led the 20th EBS, in describing some of the unit's activities during the 176 sorties of their deployment. 2011

B-52H, T/N 60-053 30 NM NORTHWEST OF GUAM 21 JULY 2008 On July 21, 2008, at approximately 0955 local time (L), a B-52H aircraft, tail number 60-053, crashed into the ocean 30 nautical miles (NM) northwest of Guam. This aircraft was assigned to the 20th Bomb Squadron, 2d Bomb Wing, Barksdale Air Force Base (AFB), Louisiana, and deployed to the 20th Expeditionary Bomb Squadron, 36th Wing, Andersen AFB, Guam. The aircraft was destroyed. All six aircrew members are presumed to have died instantly as a result of the mishap. The aircraft had no weapons on board. RAIDER 21, the mishap aircraft (MA), departed Andersen AFB, Guam, at 0859L to accomplish a local training mission that included performing a flyby in support of the Guam Liberation Day celebration. The flyby was to occur at 1000L in downtown Agana, Guam, near the World War II Park and the Governor's Complex, at 1,000 feet. A 2-ship flight of F-15Es, COLT 11 flight, was also scheduled to perform in the flyby, one minute after the MA. After the MA was airborne, it proceeded to and entered the pre-planned holding orbit at 14,000 feet, 30 NM northwest of Guam. At 0930L, COLT 11 flight departed Andersen AFB, proceeded to the flyby holding orbit and established holding 1,000 feet above and approximately 4 to 6 miles behind the MA. At approximately 0953L, the mishap crew (MC) informed the Air Traffic Control (ATC) authority they were about to leave the holding orbit and confirmed the approach corridor from the holding orbit to Guam was clear. COLT 11 flight turned away from

the MA to gain the desired one minute spacing and last saw the MA in a left turn toward the coast of Guam. The MA continued its left hand turn toward the flyby inbound leg and began a descent. After approximately one minute, ATC radar returns no longer tracked the MA, and it is assumed the MA impacted the surface of the ocean at approximately 0955L, 30 NM northwest of Guam. The Accident Investigation Board President found by clear and convincing evidence that the cause of this mishap was a mis-positioning of the stabilizer trim (stab trim) mechanism. With no eyewitness account, surviving aircrew members, emergency radio calls or "black box" recordings and with minimal recovered aircraft control systems/instruments, the specific reason the stab trim was in an improper position cannot be determined. The Accident Board President found two factors which contributed substantially to the mishap: 1) the combination of low altitude with a descending left turn of the MA; and 2) late recognition of the serious nature of the situation by the MC. However, even an experienced aircrew could have found it difficult to recognize, assess, and recover from the very rapidly developing situation involving the stab trim setting.

On Sept. 5, 1923, operating from an improvised airdrome on the sands near Cape Hatteras, N.C., the group's Curtiss NBS-1 aircraft from the 11th, 20th and 96th Bombardment Squadrons sank the ex-U.S. Navy battleships *Virginia* (BB-13) and *New Jersey* (BB-16) off Cape Hatteras in further bombing tests. With the training and experience gained during these final tests, the group had evolved into America's premier aerial bombardment unit.

21 April 1923 Capt. Walter Ralls "Tiny" Lawson, Sr. (b. 23 October 1893) is killed along with four other crew when his Martin MB-2 bomber, 64205, of the 20th Bombardment Squadron, 2d Bombardment Group, crashes into the Great Miami River in high winds shortly after takeoff from McCook Field, Dayton, Ohio, the same aircraft he piloted with the 1st Provisional Air Brigade during bomb tests out of Langley Field that sank the former German battleship SMS *Ostfriesland*. The Army named the balloon landing facility at Fort Benning, in his home state of Georgia, Lawson Field in his honor in August 1931. After World War II the name of Second Lieutenant Ted W. Lawson was added to his, giving the parsimonious post war Army two memorials for the price of one. The second Lawson was author of *Thirty Seconds Over Tokyo*, a memoir of his experiences as a pilot on the historic World War II raid led by the first Lawson's fellow pilot in the 1st Provisional Air Brigade, Jimmy Doolittle. At the time of his death, the senior Lawson was commanding officer of the 20th Bombardment Squadron.

Andersen AFB, Guam-A B-52 bomber deployed here from Barksdale AFB, La., as part of the Air Force's continuous bomber presence mission will drop the base's last M117 general-purpose bomb in June, said officials during a recent visit. Lt. Col. Scott Maytan, commander of the 20th

Expeditionary Bomb Squadron, told Air Force Magazine there were some "31,000 M117s in the bomb depot" during the first CBP rotation in 2004. Since then, each bomber rotation has dropped an average of 700 of the bombs. "That signals a lot of good training over a decade for a lot of good weapons," said Lt. Col. Sean Walker, deputy commander of the 36th Operations Group. "It's 40 to 50 years in the making, this last drop," he added. The M117 is a 750-pound general purpose bomb that the United States used extensively during the Korean War, Vietnam War, and against Iraq in 1991. "It is uncertain as to when M117s were first present at [Andersen], although through word of mouth, it's been said that many were dropped during Operation Linebacker II missions over North Vietnam," said 36th Wing spokeswoman 1st Lt. Jessica Clark. The bombs became the weapon of choice on CBP sorties because they provided valuable training to bomber crews and their use prevented officials from having to spend a "significant amount of money to ship the munitions" to the continental US for demilitarization, she said. 2015

Airmen and B-52s from the 20th Bomb Squadron at Barksdale AFB, La., returned to home station earlier this week from a six-month deployment to Andersen AFB, Guam. Now in its 11th year, the continuous bomber presence mission taps USAF bombers to rotate to Andersen to participate in a wide range of joint and allied training activities as well as conduct assurance and deterrence tasks in the Asia-Pacific region. Maj. Joe Foster, the 20th BS assistant director of operations, said Barksdale's airmen worked closely with all the agencies comprising Andersen's 36th Wing, as well as international militaries and other US services. The deployment was a "total joint international effort to support the [CBP] mission in the region," Foster said. With Barksdale's 20th BS now back home, the 23rd BS from Minot AFB, N.D., will take its place in the rotation. B-2s from Whiteman AFB, Mo., also recently deployed to Guam on a separate training rotation. 2015
