NICKNAME

OPERATIONS

World War II fostered the return of flying training to Chanute Field, the first since 1918. The 29th Specialized Pilot Training Group, a unit of the Eastern Flying Training Command, Maxwell

Field, began four-engine flying instruction at Chanute in September 1943. Initially, the flying training was on the B-17 but it was replaced by the B-25 in the spring of 1944.
