

81st TEST SUPPORT SQUADRON

MISSION

The 81st Test Support Squadron provides radar control, technical, staff, and administrative test and evaluation support to Air Force and DOD missile firing programs. The squadron provides radar control and range safety in support of WSEP, other test activities, and air combat training.

The squadron also provides technical, engineering, acquisition, logistics, data automation and local area network, system configuration control, budget, and scheduling support for the 53rd WEG. This includes program management of all Gulf Range air-to-air systems, range control systems, aerial target (full- and subscale) systems, and payloads, missile scoring and data analysis telemetry and communications systems. It is also the primary manager for the USAF Air-to-Air Weapons Meet, William Tell.
