AIR FORCE COMMAND AND CONTROL TRAINING AND INNOVATION GROUP (C2TIG)

Conducts instruction and wargaming responsibilities for joint air ground operations, including several exercises a year, and develops and evaluates warfighter tactics, techniques and procedures to support joint air operations worldwide. More than 4,000 military personnel participate each year in the group's Battlestaff Training School's Blue Flag and Warrior Flag exercises.

The AFC2TIG is a subordinate unit to the Aerospace Command and Control & Intelligence, Surveillance and Reconnaissance Center at Langley AFB, Virginia. The AC2ISRC serves as the lead agency to pull command and control together across the Air Force. Under the mantle of the AC2ISRC, the AFC2TIG is the focal point for integration of all aerospace campaign command and control processes, including rapid technology assessment on behalf of the warfighter. AFC2TIG possesses the unique ability to test, exercise, experiment, and train all elements of command and control: people, processes, and systems.
